CORE MODEL

The CORE Model includes a fully assembled DSP with a heatsink and blank side panels for each slot that is not configured with a module. It also comes standard with integrated SPDIF input (optical / coaxial). The package also contains a wooden box, a certificate, a T-shirt, a USB cable, and two Allen keys. Please note that to use the DSP, the CORE Model must be equipped with at least one output module.

Choose a color: ☒ **Black** ☐ **Silver**

INPUT MODULES

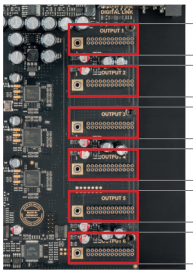

Select up to 4 input signal modules with either stereo analog RCA and Highlevel input or stereo digital optical / coaxial SPDIF input.

Input 1 (Channel A / B)	☐ Analog with AKM	☐ Digital SPDIF	☒ None
Input 2 (Channel C / D)	☐ Analog with AKM	☐ Digital SPDIF	☒ None
Input 3 (Channel E / F)	☐ Analog with AKM	☐ Digital SPDIF	☒ None
Input 4 (Channel G / H)	☐ Analog with AKM	☐ Digital SPDIF	☒ None

OUTPUT MODULES

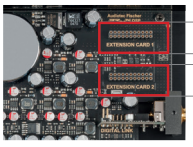

Select up to 6 output modules with either stereo analog RCA or stereo digital optical / coaxial SPDIF output.

Output 1 (Channel A / B)	☐ Analog with ESS	☐ Analog with AKM	☐ Digital SPDIF	☒ None
Output 2 (Channel C / D)	☐ Analog with ESS	☐ Analog with AKM	☐ Digital SPDIF	☒ None
Output 3 (Channel E / F)	☐ Analog with ESS	☐ Analog with AKM	☐ Digital SPDIF	☒ None
Output 4 (Channel G / H)	☐ Analog with ESS	☐ Analog with AKM	☐ Digital SPDIF	☒ None
Output 5 (Channel I / J)	☐ Analog with ESS	☐ Analog with AKM	☐ Digital SPDIF	☒ None
Output 6 (Channel K / L)	☐ Analog with ESS	☐ Analog with AKM	☐ Digital SPDIF	☒ None

BRAX EXTENSION CARDS

The DSP can be equipped with up to two BRAX Extension Cards (BEC) for optional input / output modules like Bluetooth® Audio Streaming, High Resolution Audio Streaming via USB etc.

BEC 1	☐ BT HD (Bluetooth®)	☐ HD-AUDIO USB-INTERFACE	☒ None
BEC 2	☐ BT HD (Bluetooth®)	☐ HD-AUDIO USB-INTERFACE	☒ None
